DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7, 10-23, 25, and 26 are allowed.

2. The following is an examiner's statement of reasons for allowance:

European Patent Application EP 1 075 063 A2 to Gambini teaches a similar system to that of the present application. However, with respect to independent claims 1, 22, 23, 25, and 26, Gambini, as well as the other prior art of record, fails to teach or suggest pre-selecting one or more of the at least one interference signals using a predetermined bandwidth and a filter characteristic that is asymmetric with respect to an actual frequency of the optical signal. With respect to independent claim 19, the prior art of record fails to teach or suggest combining the loop filtered error signals with a positive or negative sign according to the scheme outlined in the claim. Therefore, independent claims 1, 19, 22, 23, 25, and 26, as well as all respective dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
